

A close-up photograph of a brick pillar. The pillar is constructed from reddish-brown bricks with visible mortar joints. It is topped with a dark, cylindrical metal cap. The base of the pillar is encased in a rough, grey concrete foundation. The pillar is situated on a paved surface, and a brick wall is visible in the background.

A large, multi-story brick building, likely a former industrial or institutional structure, surrounded by tall grass and trees. The building has many windows and a prominent chimney.

Technical drawing of the 'Banco' bench, showing a top view and a side view. The top view is a rectangle with a central rectangular cutout. The side view shows the bench's profile with a curved backrest and a flat seat. Dimensions are provided in centimeters: 70 cm for the width of the side panels, 140 cm for the total width, and 75 cm for the depth of the seat. Labels point to various components: 'Banco' (the bench), 'Base di appoggio con ruote M10' (base with wheels), 'Rampetto con ruota M10' (sweep with wheel), 'Dischi laterali in metallo nastro piano e nastro base color' (metal side plates and colored base tape), 'Corrimano portati in metallo per il nastro M10' (metal handrails for the M10 tape), and 'Pavimento scivolo' (slippery floor).
